

War or World Peace Through Law? -- America's Wars since 1945

by Paul N. "Pete" McCloskey, Jr.

2007 Annual Good Government Luncheon-Lecture

Presented by the Democratic World Federalists & U.C. Berkeley's International House

Sunday, 15 April 2007

at the International House of the University of California at Berkeley

After serving in the U.S. Marines, "Pete" McCloskey joined the United World Federalists.

A Member of Congress from 1967 till 1983, he is a progressive Republican and a determined, but friendly fighter for the causes he believes in, including good government.

A co-founder of the first Earth Day in 1970 and cosponsor of several important environmental bills, including the Endangered Species Act, he feels strongly that the current administration has weakened environmental laws and programs.

With an anti-war message, he ran against President Richard Nixon in 1972 and obtained 20% of the vote in the early New Hampshire Republican primary. He was the first Republican Member of Congress to call publicly for the impeachment of Nixon after the Watergate scandal and the "Saturday Night Massacre."

An opponent of the U.S. war in Iraq, in 2006 he ran against "DeLay Republicans," saying "They don't have any Republican values I remember."

Come hear Elder Statesman "Pete" McCloskey!
