

MAKE LAW

NOT WAR

World Law

THAT IS:

- created by a democratically elected world legislature, representing the will of *all* the world's people;
- guided by a world-charter and global bill of rights; and,
- enforced universally, with justice, against individuals as well as nations.

CAN:

- abolish war as a solution to major armed conflicts; and,
- liberate *you* to become a citizen of a peaceful and just world!
